**Attachments:** Interview Record Template\_Community Member\_Triple Site.docx

Good morning, Rebecca,

Thank you for your patience in the time it has taken me to get back to you on this subject. Would you please send me your and Northrop's preferred date/time options for a brief interview during the weeks of March 11<sup>th</sup> and 18<sup>th</sup>? Alternatively, you are also welcome to provide written answers to the interview questions.

Regards,

Melanie

**Subject:** Interview for EPA's Five-Year Review for AMD 901/902, TRW and Offsite OU

Good morning, Wes, Rebecca and Michael,

As you know, every five years, EPA is required by federal law to revisit the cleanup plans for all of its Superfund Sites and evaluate the progress made in the previous five-year period. The result of this evaluation culminates in a report that EPA prepares, entitled the "Five-Year Review." EPA's next Five-Year Review for the AMD 901/902 and TRW Sites and Offsite OU is due by Sept. 30, 2019. As part of this process, EPA interviews stakeholders to obtain their feedback and perspective on EPA's cleanup projects.

Would you please check in with the companies and see if they would like to participate in an interview? The interview could be done over the phone, and would likely take around 30 minutes.

Typical questions include:

- Overall impression of the project
- Effect of cleanup activities on the surrounding community
- Any community concerns regarding the site of which you are aware
- Any events, incidents or activities at the site such as vandalism, trespassing, or emergency responses of which you are aware
- How well informed you feel about the site's activities and progress
- Any comments, suggestions, or recommendations you may have regarding the site's management or operation

Thank you, and I hope you have a wonderful holiday season!

Sincerely,

Melanie
